

Overview

RugbyTemps LTD is dedicated to providing comprehensive game day medical personnel solutions. Serving as a central hub, we facilitate coordination between organisations and therapists, ensuring therapists receive consistent work opportunities while clubs have access to qualified medical personnel for their events. We collaborate with therapists to offer extensive additional training, enabling them to excel in their roles within clubs and organisations.

The System

1. A therapist can register with RugbyTemps, they will then be able to access the events list of all available jobs. As well as looking at the event list when new jobs are added, an automated email will be sent to the network of therapists that be accepted immediately
2. Once the therapist accepts a job, the club is notified via email with the therapist's details. The therapist will then work the specified event, and the club compensates them according to their usual payment practices, e.g., the therapist invoices the treasurer at the end of the month.
3. A simple reporting form will need to be completed post-match/event, for a smooth handover with the club and the head of medical at the club

Player Safety and Therapist Competency.

1. RugbyTemps aims to launch new graduates into the workforce while supporting their development into outstanding therapists and medics. All therapists are self-employed, and RugbyTemps ensures they are qualified and insured to work at your events. We provide extensive Continuing Professional Development (CPD) and additional training courses, such as medical gases training and advanced trauma care.
2. We enforce a strict reporting process: therapists must complete a report for any incidents or injuries, with copies sent to both the club and RugbyTemps for record-keeping.

Pricing

RugbyTemps offers therapists monthly subscription or annual subscription with an automatic or manual option for renewal:

- Annual Subscription: £100, renewable on the same date each year.
- Monthly Subscription: £10, renewable on the 1st of every month.

As the company is just setting up, therapists will be able to pay £10 for the remainder of 2024. As RugbyTemps is just starting there may be a scarcity of jobs and it isn't fair to charge £10 until more clubs come onboard and the initial £10 is to cover overheads related to data-protection.

Payments can be made via our website for subscriptions or annual payment. Therapists can cancel their subscriptions at any time with 30 days' notice. If this notice period coincides with the 1st of the month, a final payment will be processed on that day, and access to the system will continue until the end of the month.

Thank you for reading this document and we look forward to building a fantastic relationship within our rugby community.

Kind regards
